The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/533,337	<b>Applicant(s)</b> ZHOU ET AL.	
	<b>Examiner</b> /Venkataraman Balasubramanian/	<b>Art Unit</b> 1624	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Applicants' response, which included cancellation of claims 21, 24, addition of new claim 27 and amendment to claims 1-6, filed on 4/14/2008, is made of record. Claims 1-8, 10-20, 22, 26 and 27 are now pending. In view of applicants' response, all 112 rejections made in the previous office action have been obviated. However, the following new grounds of rejections are applied to currently pending claims.

#### ***Information Disclosure Statement***

References cited in the Information Disclosure Statement, filed on 4/28/2008, are made of record.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10-20, 22 and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 1 indefinite as it recites a variable group R<sup>9</sup>. But there is no definition of such a grouping in the claim. As recited, the compound embraced in claim 1 and its dependent claims remain undefined.

#### ***Claims 1-8, Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct

Art Unit: 1624

from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-8, 10-20, 22, 26 and 27 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 4, 6, 9-12, 15-23, 25, 27, 28, 30 and 32-35 of copending Application No. 01/586,765. Although the conflicting claims are not identical, they are not patentably distinct from each other because the subject matter namely compound and composition embraced in the instant claims are also embraced in the claims of the latter filed copending application which is now allowed. Note when R<sup>1</sup> is heterocycle or phenyl, the compounds, composition taught by the copending application include instant compound and composition. Thus, one trained in the art would be motivated make compounds taught by the copending application with various choices of R<sup>1</sup> including heterocycle and phenyl based on the teaching of other R<sup>1</sup> choices exemplified therein and expect those compounds to have the use taught therein. Note the latter filed copending application has now been allowed and hence this rejection is deemed as proper even though instant application has earlier effective filing date.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
